

Project – Phase 3

Atef Bader, PhD

Submission:

Submit your Project-Phase 3 as a SINGLE ZIP file on Canvas by the due date.

Your submitted ZIP file must have the name:

Project_Phase_3_Your_LastName.zip

Deliverables:

Your ZIP file for the submission must include the following:

- Your complete React App that you have designed and developed.
- Panopto Video recording of live demo of Your React App that you have designed and developed

Requirements:

In this phase you will provide the Full-Stack/complete implementation for the requirements listed below.

Based on the work that you have completed for the **Final Project Phase 1 and Phase 2** provide your answers for the requirements listed below:

Requirement 1: (25 Points) Complete React implementation of the **Homepage** that has the listing of the products/services.

Requirement 2: (25 Points) Complete React implementation of the **Shopping Cart** feature. Add and Delete items to/from the shopping cart

Requirement 3: (25 Points) Complete React implementation of the user **Login** feature. User login clearly displayed on the navigation menu/bar across all pages.

Requirement 4: (25 Points) Complete React implementation of the **Orders** listing/history feature. Add and Delete Orders using the user login.

Requirement 5: (25 Points) Quality of the UI engineered and developed.

Requirement 6: (25 Points) Quality of the UX engineered and developed.
